KEY EXPERTISE

Core CS: DBMS, DSA, OOPs, Operating Systems, Computer Networks, Computer Architecture

Tools: Git, GitHub, Linux, VS Code, Jupyter Notebook

Programming Languages: Java, C, Python, SQL, Bash

Frontend: HTML, CSS, React, Next.js

Backend: Node.js, Express.js, FastAPI, REST APIs

Databases: MySQL, SQLite, MongoDB

Generative AI: LLMs, Prompt & Context Engineering, AI API Integration, RAG Basics, AI-powered Web Applications

PROJECTS

- **ZenLift.in** — ZenLift helps small businesses and startups grow online with affordable web development, automation, and social media management.
- **TEJAS** — (<https://tejas-web-blond.vercel.app/>): An AI-powered self-study platform that turns PDFs, videos, and topics into personalized quizzes and study plans. It tracks performance, finds weak areas, and supports adaptive revision for competitive exams and academics.
- **InterV.in** — An AI-powered interview prep platform with company-specific roadmaps, mock interview simulations, and peer insights. A fully deployed full-stack SaaS built for structured, targeted practice.
- **QuantumLearn** — (<https://qc-lilac-mu.vercel.app/>): A Quantum Computing learning platform for our college.
